

10/4/08

Attention judges who have registered with the JAS system.

There is a glitch with the email notification, and some of you may NOT have received an email letting you know you have been assigned a meet. Please go into the system and check for your assignments regularly: <http://judges.troester.com> (no www)

As a reminder, the assigning process will proceed until approximately November 15th. We have started with the local assignments, and then will move on to the out-of-area assignments and meet referee assignments.

Thank you for your patience. I've enclosed the note I received from Steve Troester that explains the problem.

Robin Ruegg
